

Knox-Box Program

Offering Peace of Mind for the Community and Firefighters

The goal of the **Williamsport Volunteer Fire & EMS, Inc** is to provide the best and most up-to-date service to the people in our fire protection area. In contrast, maintaining keys to alarmed buildings/residences has become unmanageable and is causing delays when responding to emergencies.

In order to access buildings quickly, minimize forced entry damage, and protect firefighters from injury, the **Williamsport Volunteer Fire & EMS, Inc** has adopted the Knox-Box Rapid Entry System. Currently, more than seven thousand fire departments and the communities they protect enjoy the benefits of this proven system.

Knox-Boxes are constructed of $\frac{1}{4}$ " solid steel with a $\frac{1}{2}$ " steel door and reinforced locking mechanism. They are UL listed against physical attack and Medeco security lock is patented and UL listed for drill, pick and pull resistance.

The master key to open the Knox-Box is held **ONLY** by the **Williamsport Volunteer Fire & EMS, Inc**. This high security key is strictly controlled and is produced **ONLY** by the Medeco factory under direction from an authorized fire official's signature.

Knox-Boxes are specified by the **Williamsport Volunteer Fire & EMS, Inc**, Inc but are purchased directly from the Knox Company. Once installed near the entrance to your property, the department locks your building entrance key inside the Knox-Box so that it is available onsite for future emergencies.

If you have any further questions feel free to call the Knox Company at 800-552-5669 or you can visit the Knox website at www.knoxbox.com. Otherwise, please call our FIRE / EMS station at 301-223-9500 to obtain an order form and installation instructions.

Committed to Your Safety,

William Ball, Fire / EMS Chief
Williamsport Volunteer Fire & EMS, Inc

Knox Box Images

Ten reasons to install a Knox Box system on your home or business.

1. Eliminate needless, costly forced entry damage that may not be covered by your Insurance deductible.
 2. Assure immediate building entry by firefighters without delay or waiting for building keys.
 3. Protect inventory, equipment and supplies from unnecessary water damage caused by delayed sprinkler shut-off.
 4. Satisfy local fire codes and emergency access ordinances.
 5. Save time and aggravation by not having to drive to your establishment at 2:00 am for a false alarm.
 6. Feel secure about emergency coverage when your building/residence is left unattended. The Fire Department holds the only key to the Knox-Box.
 7. Maintain building security after a fire alarm investigation by simply re-locking the undamaged door.
 8. Protect your property from thousands of dollars in damage with this one-time, low cost investment.
 9. Depend on the highest lock box security available with attack resistant, UL tested reliability.
 10. Over the last 27 years, Knox-Box has been the chosen solution in 7,000 communities nationwide - communities just like ours!
-

Participating in the Knox System is simple:

Select the appropriate Knox device in consultation with the **Williamsport Volunteer Fire & EMS, Inc** and obtain an approval signature from the Fire Chief.

Complete the Authorization/Order Form and pay particular attention to the following sections: Ordered By, Ship To, and Installation Address.

Total the cost for the items ordered and attach a check made payable to Knox Company. Mail completed form and check to:

The Knox Company
17672 Armstrong Avenue
Irvine, California 92614
